I. What aspects of the teaching or content of this course do you feel were especially good?

Really appreciated her use of Powerpoint lectures because there was a lot of information.

Video clips / documentaries helpful also

II. What changes could be made to improve the teaching or the content of this course?

I felt overwhelmed a lot, so maybe simplify a few of the topics.

I. What aspects of the teaching or content of this course do you feel were especially good?

- have great examples for concepts
- Made everything relevant to our age group and what is going on in the course
- Work load wasn't bad at all

II. What changes could be made to improve the teaching or the content of this course?

- Maybe less reading. I think more kids would actually do it if it was one article a piece.
- Research proposal is a little daunting
 - Maybe more instruction on these

I. What aspects of the teaching or content of this course do you feel were especially good?

Dr. Murdie is extremely knowledgeable. She's approachable and "cool." Great class.

II. What changes could be made to improve the teaching or the content of this course?

I wish we had had a textbook. All of our reading was taken from published research, which was great, but at times hard to follow. I would have benefitted from a small textbook that outlined core concepts.

I. What aspects of the teaching or content of this course do you feel were especially good?

- I really liked the access to the powerpoints and the shorter readings.
- Everything was easy to understand especially since I'm not a poli sci major.
- I also liked not having to pay for books!

II. What changes could be made to improve the teaching or the content of this course?

Some of the readings were really long and boring! We also spent too much time on some of the topics (NGOs).

I. What aspects of the teaching or content of this course do you feel were especially good?

The relevancy of the material was good.
I liked that discussion of present day issues were encouraged.

II. What changes could be made to improve the teaching or the content of this course?

Large amount of reading where the concepts were needed to be able to be recited on tests citing the readings, instead of just a understanding of the topic

I. What aspects of the teaching or content of this course do you feel were especially good?

I really liked the outline of the notes the teacher provided before each class.

Also liked the study guide for the test.

Overall, very good teacher.

II. What changes could be made to improve the teaching or the content of this course?

There was a lot of reading and most of it was pretty boring reading. Maybe only one article per class?

I. What aspects of the teaching or content of this course do you feel were especially good?

Examples of theories were very helpful and preparation for exams cemented the ideas

II. What changes could be made to improve the teaching or the content of this course?

Less emphasis on scientific/political science research + more emphasis on application of theories. Also the use of current events for icebreakers is tricky, not everyone is comfortable speaking on politicized issues they know little about. Maybe older examples or hypotheticals would be better

I. What aspects of the teaching or content of this course do you feel were especially good?

- Teacher had an extremely in depth knowledge of the course material.
- Lots of information

II. What changes could be made to improve the teaching or the content of this course?

- Sometimes difficult to keep pace with the speed of each class when trying to make notes

I. What aspects of the teaching or content of this course do you feel were especially good?

- Students are really encouraged to express themselves. The environment is less "formal" and makes students more likely to talk!
- DR. MURDIE is very understanding to student needs!

II. What changes could be made to improve the teaching or the content of this course?

The amount of reading was very difficult to keep up with.

I am in another class and I really like the technique that professor uses:

We have readings to do for each lecture and there is a question we have to answer in 1 page or less that is due the day of class via blackboard. This means students HAVE to do the reading and there is a lot of discussion in a rec class. I would have enjoyed

I. What aspects of the teaching or content of this course do you feel were especially good?

Murdie is obviously so knowledgeable in everything she teaches. There is a question or comment she can't discuss. She is also kind and invested in her students learning. Loved her! Oh and I loved the videos!

II. What changes could be made to improve the teaching or the content of this course?

There were a few times throughout the class where I would be lost in discussion because I didn't know what a basic word meant... maybe a day at the beginning explaining over all H.R. words or "lingo" would be useful.

I. What aspects of the teaching or content of this course do you feel were especially good?

Lots of subject matter relevant to the focus of this course. Use of media clips very useful to learning. Professor very knowledgeable in this field, learning from the best.

II. What changes could be made to improve the teaching or the content of this course?

Professor moves at lightning speed, but at least the slides were online as well. The expected reading load every day was exceptionally heavy.

I. What aspects of the teaching or content of this course do you feel were especially good?

Murdie = AWESOME

Courtney = very helpful & knowledgeable

Content = interesting, relevant

Great class, I enjoyed & looked forward to attending every day

II. What changes could be made to improve the teaching or the content of this course?

I don't know if I feel like it was AS NECESSARY/ HELPFUL to study the documents (or discuss them) than it would have been to apply them to ACTUAL ISSUES/ actual results (rather than just the author's opinion)

I. What aspects of the teaching or content of this course do you feel were especially good?

- I very much enjoyed discussion in class, as well as the frequent examination of real life examples/consequences of policy (obviously necessitated by the course's subject).

II. What changes could be made to improve the teaching or the content of this course?

- I felt that some other students had difficulty with listing specific literature in exams, although this may be speculation since I didn't have this problem. Perhaps brief descriptions or tags could help students to better apply literature in exams.

I. What aspects of the teaching or content of this course do you feel were especially good?

- wide variety of topics covered
- Relevance of current events

II. What changes could be made to improve the teaching or the content of this course?

Cut down the number of required readings for each class. Have 1 required reading and put more emphasis on the recommended readings. Have students take notes about the recommended readings and include them on the exam. That would force students to actually listen to the presenter(s).

I. What aspects of the teaching or content of this course do you feel were especially good?

- interesting reading material
- Lectures were informative, the professor was informed & enthusiastic

II. What changes could be made to improve the teaching or the content of this course?

My only complaint with the course was the format of the test. Remembering the specifics of who said what in which article seemed to be missing the point of grasping the concepts and made attending lectures feel somewhat unnecessary, as we weren't being graded so much on those.

I. What aspects of the teaching or content of this course do you feel were especially good?

The professor had clear knowledge in the area of study and ~~it~~ I liked the ice breakers to introduce a topic because they made topics relatable

II. What changes could be made to improve the teaching or the content of this course?

I think the ~~expansive~~ expansive reading materials required for the course is somewhat unrealistic and the style of grading for the essays on the exams were very rigid and unfair in representing a student's knowledge over the material. I + focused too much on trivial guidelines such as citing all of the reading sources on a particular topic

I. What aspects of the teaching or content of this course do you feel were especially good?

Just about everything. I highly enjoyed the course and material.

II. What changes could be made to improve the teaching or the content of this course?

While the student presentations help the presenter, they almost always were not presented in a way that taught the rest of us much. This obviously isn't a criticism of you, but perhaps restructuring to put less daily emphasis on listening to people with no teaching or speaking background, and just have them give us the abstracts.

I. What aspects of the teaching or content of this course do you feel were especially good?

- She was great at incorporating student comments into her lectures. (If we raised our hand to make a comment, she would often come back to it later in the lecture & mention our name, too).
↳ Good case practice to know students' names!

- She makes herself very available for her students to ask Qs about the course, careers, research mentorships, and academia in general.

- Very good @ connecting with undergrad students.

★ Great choice hiring her!!!★

II. What changes could be made to improve the teaching or the content of this course?

This sheet with your handwritten comments will not be seen by your instructor until after your grades have been turned in. (You are not required to answer any of these questions.)

I. What aspects of the teaching or content of this course do you feel were especially good?

Your usage of more contemporary examples made the class seem more pressing and engaging, as opposed to a series of boring lectures about things that happened during my grandparents' time.

II. What changes could be made to improve the teaching or the content of this course?

Some of the videos were of kind of low quality, you may want to find higher quality video.
